

2016 PRESENTING COMPANIES OVERVIEW

Turin Presenting Companies

Digital Health

Company	Location	Presenter	Stage
Amiko	Milan	Alexander Marinov	Growth
EVARplanning	Buccinasco	Paolo Spada	Growth
MoRe	Turin	Paolo Ariano	Growth

ICT

Company	Location	Presenter	Stage
CELI - Language Technology	Turin	Vittorio Di Tomaso	Growth
In-recruiting	Turin	Matteo Cocciardo	Growth
Supermercato24	Verona	Federico Sargenti	Growth
Naboomboo	Turin	Daniele Pozzo	Emerging
Orchestra	Turin	Guido Colombo	Emerging
WaterView	Turin	Paola Allamano	Emerging
You Are My Guide	Turin	Ester Liquori	Emerging

Industry 4.0/Smart City

Company	Location	Presenter	Stage
Alleantia	Pisa	Stefano Lineari	Growth
EasyRain	Turin	Paolo Cistaro	Growth
Hysytech	Turin	Andres Saldivia	Growth
Illogic	Turin	Francesco Bevione	Growth
Media Lario	Bosisio Parini	Jeff Lyons	Growth
Modelway	Turin	Alessandro Michelotti	Growth
1Control	Brescia	Matteo Galvagni	Emerging
AgriNewTech	Turin	Massimo Pugliese	Emerging
Eggtronic	Modena	Igor Spinella	Emerging
Enerbrain	Turin	Giuseppe Giordano	Emerging
moltosenso	Turin	Marco Francesco Urso	Emerging
PonyZero	Turin	Farhad Alessandro Mohammadi	Emerging
WAVE TRASTIC	Saluggia	Giorgio Cerruti	Emerging

Rome Presenting Companies

Digital Health

Company	Location	Presenter	Stage
BrainControl	Siena	Pasquale Fedele	Growth
D-EYE	Padova	Alberto Scarpa	Growth

ICT

Company	Location	Presenter	Stage
ADmantX	Naples	Luigi Conti	Growth
Apparound	Pisa	Gianluca Cagiano	Growth
Domec	Milan	Antonio Sorrentino	Growth
Filo	Rome	Giorgio Sadolfo	Growth
Le Cicogne	Rome	Monica Archibugi	Growth
Maikii	Treviso	Matteo Fabbrini	Growth

OrientDB	Fiumicino	Luca Garulli	Growth
Predixit	Milan	Jacopo Sarri	Growth
Safety21	Rome	Gianluca Longo	Growth
Viralize	Florence	Marco Paolieri	Growth
WineoWine	Rome	Federico Laurentino De Cerchio	Growth
Adabra	Arezzo	Gian Mario Infelici	Emerging
ChupaMobile	Rome	Stefano Argiolas	Emerging
cogisen	Rome	Christiaan Erik Rijnders	Emerging
Experenti	Massanzago	Amir Baldissera	Emerging
Lovby	Milan	Andrea Gualtieri	Emerging
STUDIOMAPP	Cesena	Angela Corbari	Emerging
XMetrics	Milan	Francesco Quartuccio	Emerging

Industry 4.0/Smart City

Company	Location	Presenter	Stage
Atooma	Rome	Gioia Pistola	Growth
D-Orbit	Sesto Fiorentino	Andrea Ferrante	Growth
Smart-I	Rome	Mauro Di Giamberardino	Growth
Visionar	Osimo	Andrea Andreucci	Growth
GiPStech	Cosenza	Matteo Faggin	Emerging
Zego Urban Carpooling	Milan	Davide Ghezzi	Emerging

	<p>1CONTROL specialises in developing disruptive remote control solutions for next generation building automation architectures.</p> <p>Stage: Expansion/Growth Location: Brescia, Italy CEO: Matteo Galvagni</p>
	<p>ADABRA is a Marketing Automation platform that increases sales of e-commerce and retailers offering their users personalised and enjoyable shopping experiences by analysing their behaviours and showing the most relevant products for each of them.</p> <p>Stage: Start-up Location: Arezzo, Italy Founder: Gian Mario Infelici</p>
	<p>ADmantX is a fast-growing company that provides smart data to support better brand planning and targeting. The precise data we generate enables brands to reach the right audiences and match ads to the right content, protecting brand reputation and enhancing performance. Scalable, accurate, and customisable our solutions keep brands safe and relevant.</p> <p>Stage: Expansion/Growth Location: Naples, Italy Board Member: Luigi Conti</p>

 <p>AGRI NEW TECH RESEARCH FOR ACTION</p>	<p>AGRINEWTECH provides services for the development and implementation of sustainable crop protection strategies by using organic wastes and compost; the development of biological control agents and plant biostimulants; the transfer of technologies in developing countries and emerging economies.</p> <p>Stage: Expansion/Growth Location: Turin, Italy Founder: Massimo Pugliese</p>
 <p>Alleantia</p>	<p>ALLEANTIA solves three key problems of Industry 4.0: connectivity, interoperability and cost through its XPANGO integration technology. XPANGO enables organizations to quickly connect and manage virtually any industrial device and communicate to any enterprise application (ERP, CRM, PLM, analytics).</p> <p>Stage: Expansion/Growth Location: Pisa, Italy CTO: Stefano Lineari</p>
 <p>amiko</p>	<p>AMIKO'S mission is to help public institutions and private healthcare organisations better evaluate their interventions and treatments to deliver high quality, effective and patient-centred care.</p> <p>Stage: Expansion/Growth Location: Milan, Italy Founder: Alexander Marinov</p>

	<p>APPAROUND provides a mobile first application that digitises sales, making it easy for sellers to show customers content, collect information, generate real-time quotes and sign contracts in one meeting. Our target market is any company with a sales and/or a service organisation.</p> <p>Stage: Expansion/Growth Location: Pisa, Italy CEO: Gianluca Cagiano</p>
	<p>ATOOMA is a tech startup in the field of Internet of Everything, based in Rome and in Trento. Thanks to a passionate team, Atooma developed an Artificial Intelligence platform able to deliver autonomous and proactive automation across connected devices: Resonance AI, a white label SDK that reduces time and costs to build valuable IoE mobile applications and devices.</p> <p>Stage: Expansion/Growth Location: Rome, Italy President: Gioia Pistola</p>
	<p>BRAINCONTROL gives disabled people the ability to control objects with their thoughts. 5 million people worldwide suffer from severe communication and mobility disabilities due to ALS, multiple sclerosis, muscular dystrophies, ischemic or traumatic injury. Based on a proprietary Brain-Computer Interfaces.</p> <p>Stage: Expansion/Growth Location: Siena, Italy CEO: Pasquale Fedele</p>

	<p>CELI – Language Technology provides software solutions and consulting services in different areas of Natural Language Processing: speech technology, text mining and analytics, semantic search, sentiment analysis, clustering and classification, ontologies and linked data. We work in close collaboration with universities and research centres.</p> <p>Stage: Expansion/Growth Location: Turin, Italy CEO: Vittorio Di Tomaso</p>
	<p>CHUPAMOBILE is the leading App and Game Templates Marketplace where anyone, even with small or no coding experience, has the opportunity to buy professional apps and games, ready to be customised and distributed on app stores. We allow everyone to have their own app or game in app stores in no time even without any design or development skills.</p> <p>Stage: Start-up Location: Rome, Italy Co-Founder: Stefano Argiolas</p>
	<p>COGISEN is an engineering company that aims to become the standard industry platform for image processing for the next generation. Cogisen has developed a totally new method of object detection. The Sencogi gaze tracking library is the first application of this technology platform.</p> <p>Stage: Start-up Location: Rome, Italy CEO: Christiaan Erik Rijnders</p>

	<p>D-EYE offers a "digital eye" into the state of the human body. We design and manufacture diagnostic instruments, along with companion applications, that enable mass health screenings and data collection to improve access to vital health examination services.</p> <p>Stage: Expansion/Growth Location: Padua, Italy Project Manager: Alberto Scarpa</p>
	<p>DOMEC offer's consulting and support for the definition, implementation, launch and maintenance of services such as value added loyalty programs, stored value card and gift card, promotional systems of couponing and cash back, channelled through card solutions or mobile-based and managed by the proprietary platform Domec.</p> <p>Stage: Expansion/Growth Location: Milan, Italy CEO: Antonio Sorrentino</p>
	<p>D-ORBIT is a first-mover in the market of decommissioning devices and a disruptor in next-generation commissioning solutions. We are leading the future in satellite fleet management by developing state-of-the-art technology to be integrated on satellites and launcher stages to streamline the initial and the final phase of the mission, reducing system complexity and cost of operation, and increasing lifetime, reliability, and revenues.</p> <p>Stage: Expansion/Growth Location: Sesto Fiorentino, Italy CFO: Andrea Ferrante</p>

	<p>EASY RAIN aims to improve safety of any wheel vehicle, thanks to an intelligent system of jets of fluid capable of contrasting the aquaplaning phenomenon on any wheeled vehicle. The operating principle consists in preventing a large amount of water from touching the tire, by reducing it through an intelligent jet spray system that splashes a fluid in front of or around the tyres.</p> <p>Stage: Expansion/Growth Location: Turin, Italy Finance & Marketing Director: Paolo Cistaro</p>
	<p>EGGTRONIC is a team of young and talented people, specialists in the field of mechatronic, mechanic and electronic engineering as well as in electronic products design and development. We are experienced in the design and production of consumer electronics, B2B electronic design and in the development of innovative technologies in the field of ecological and efficient power sources.</p> <p>Stage: Start-up Location: Modena, Italy CEO: Igor Spinella</p>
	<p>ENERBRAIN turns buildings into strong environmental, economic and social assets. Our IoT solution "Energy Cloud" includes wireless and battery powered air quality sensors, a cloud platform that receives environmental data from them and wireless actuators installed in heating and cooling systems in only a few hours.</p> <p>Stage: Start-up Location: Turin, Italy CEO: Giuseppe Giordano</p>

	<p>EVARPLANNING started designing an algorithm, including a database with codes, sizes, shapes, and instructions for use of the most frequently used aortic endoprostheses. We have added our surgical skills, and the experience of hundreds of real cases provided by the endograft companies, in a continuous process of validation and calibration of the algorithm.</p> <p>Stage: Expansion/Growth Location: Milan, Italy CEO: Paolo Spada</p>
	<p>EXPERENTI creates augmented reality solutions generating value for B2B market. Our augmented reality platform is able to combine development skills for customized solutions with the high quality of standardized products. Experenti is unique because it generates value for the client through Augmented Reality Solutions and doesn't provide just a technical tool for Augmented Reality.</p> <p>Stage: Start-up Location: Massanzago, Italy CEO: Amir Baldissera</p>
	<p>FILO is an innovative start-up founded in September, 2014. Filo is a smart key finder that helps you find and locate your valuables. Today, Filo is sold online and available into several Italian retailers. Many companies have already chosen Filo as a customised, smart and innovative corporate gift.</p> <p>Stage: Expansion/Growth Location: Rome, Italy CEO: Giorgio Sadolfo</p>

	<p>GiPStech has developed a proprietary indoor localisation technological solution consisting of a smart integration of geomagnetic and inertial algorithms that is able to reach extraordinary precision (on average 1m/-3ft) employing as guiding signal the anomalies to the geomagnetic field “naturally” present in any indoor setting: a signal that is free, stable and reliable.</p> <p>Stage: Start-up Location: Cosenza, Italy Co-Founder: Matteo Faggin</p>
	<p>HYSYTECH plays a strategic role for companies on the manufacturing and services business by bringing them a dynamic and flexible working resource to meet and develop the world’s newest technologies. We fully commit to assist our clients with our background, experience and capabilities through their company’s sustainable growth within a framework of global competitiveness.</p> <p>Stage: Expansion/Growth Location: Turin, Italy Business Development: Andres Saldivia</p>
	<p>ILLOGIC supports customers with new creative technologies that provide new values, from simulation based training to interactive 3D experiences, to increase sales, better communication product functionality and decrease training and travel costs. We operate in B2B using technical expertise and advanced technologies.</p> <p>Stage: Expansion/Growth Location: Turin, Italy CEO: Francesco Bevione</p>

	<p>IN-RECRUITING is a young, innovative company, with the mission of supporting those involved in the process of recruitment and selection of personnel, by using new technologies and investing in the development of tools which increase the effectiveness and efficiency of activities. We offer our services to job seekers, employers and intermediaries between supply and demand.</p> <p>Stage: Expansion/Growth Location: Turin, Italy CEO: Matteo Cocciardo</p>
	<p>LE CICOGNE (in English "The Storks") is a start-up born with the aim of becoming the European leader in child care services. Le Cicogne is a market place that allows parents and babysitters to match each other needs and solve the payment with cashless solutions. The mission is to connect parents with trusted babysitter in every city, in every country.</p> <p>Stage: Expansion/Growth Location: Rome, Italy CEO: Monica Archibugi</p>
	<p>LOVBY is a marketing platform that converts social media influence into tangible business actions, providing a more effective model for customers whilst rewarding consumers. LovBy's mission is to bring together companies and consumer in a shared environment. Consumers help brands to create value by using their time and influence. Brands reward them with reward points (a crypto currency we call Lovies)! Welcome to new sharing economy: yours!</p> <p>Stage: Start-up Location: Milan, Italy CEO: Andrea Gualtieri</p>

	<p>MAIKII is now one of the top companies in Europe for the design, production, and sale of USB flash drives for both the promotional merchandise and retail markets. In 2015, the company solidified its distribution networks in Asia, the Americas, and Europe, and expanded its catalogue to include Audio and Travel accessories such as power banks, headphones, earbuds, car chargers, and more.</p> <p>Stage: Expansion/Growth Location: Treviso, Italy CEO: Matteo Fabbrini</p>
	<p>MEDIA LARIO is a dynamic and innovative technology driven company supplying advanced optical components and optical systems. We work with leading industrial and Agency partners including Agenzia Spaziale Italiana (ASI), the European Space Agency (ESA) and NASA.</p> <p>Stage: Expansion/Growth Location: Bosisio Parini, Italy CEO: Jeff Lyons</p>
	<p>MODELWAY is a software engineering company that develops innovative solutions for modelling, prediction, estimation and control of complex systems. We offer technological services and embedded solutions, tailored on the base of customer needs. Modelway is recognized as reference point for R&D and Innovation Engineering activities of its customers. The solutions we suggest are focused in solving complex and time consuming industrial issues.</p> <p>Stage: Expansion/Growth Location: Turin, Italy Administration & Treasury: Alessandro Michelotti</p>

	<p>MOLTOSENSO is an Italian “Innovative SME” (PMI Innovativa) founded in Turin on late 2009. It develops ICT solutions in the following fields: Internet of Things, Big Data analytics, Social Network applications. In the past years, Moltosenso focused on the development of a patented versatile hardware/software platform to remotely deliver monitoring and control services.</p> <p>Stage: Start-up Location: Turin, Italy CEO: Marco Francesco Urso</p>
	<p>MoRe develops software and sensors that allow therapists and clinics to be closer to their patients and to maximize the quality and the efficiency of rehab treatments.</p> <p>Stage: Expansion/Growth Location: Turin, Italy Founder: Paolo Ariano</p>
	<p>MOSAICOON is the first Sharing Entertainment Company. It enables brands to quickly realise powerful video strategies for their everyday storytelling needs, while allowing creators to monetise their video projects. Its patented technological platform allows a seamless video production and distribution, merging content and media with guaranteed performances.</p> <p>Stage: Expansion/Growth Location: Isolla delle Femmine, Italy CEO: Ugo Parodi Giusino</p>

	<p>NABOOMBOO is composed of 6 graduates, with different cultural roots, academic and professional backgrounds, learning experiences and job skills. Naboomboo is an innovative community to improve your foreign language fluency by talking about your preferred topics with native speaking tutors.</p> <p>Stage: Start-up Location: Turin, Italy Co-Founder: Daniele Pozzo</p>
	<p>ORCHESTRA is now focused on Industry 4.0 to develop IoT application to make traditional equipment smart extending their product lifecycle. The solution connects machinery and plants to offer integrated digital services to near and remote professional workers and may digitally connect also the manufacturing products to make them smart and new.</p> <p>Stage: Start-up Location: Turin, Italy Co-Founder: Guido Colombo</p>
	<p>ORIENTDB doesn't use the costly JOIN. Instead, OrientDB uses super-fast, persistent pointers between records, taken from the graph database world. You can traverse parts of or entire trees and graphs of records in just a few milliseconds. Replacing your DBMS, once it no longer meets requirements, can be a huge cost in time and resources.</p> <p>Stage: Expansion/Growth Location: Rome, Italy CEO: Luca Garulli</p>

 <p>ponyzero SUSTAINABLE URBAN LOGISTICS</p>	<p>PONYZERO mission is to disrupt the urban delivery sector with routing optimization technologies and ecologic vehicles that allow to avoid traffic jams, pollution and Public Administration limitations to city centre circulations. Our objective is to be the primary logistic partner for big e-commerce and retailers such as Amazon, Zalando and Just Eat.</p> <p>Stage: Expansion/Growth Location: Turin, Italy CSO: Farhad Alessandro Mohammadi</p>
 <p>predix.it</p>	<p>PREDIXIT software solution uses an innovative algorithm to store, profile and then anticipate, behaviours and interests of users. Interacting with data profiling, it shows to every user the best and relevant deal available in the existing catalogues or contents. Several tools and formats can be integrated within the website, to deliver behavioural targeting and onsite re-marketing.</p> <p>Stage: Expansion/Growth Location: Milan, Italy Founder: Jacopo Sarri</p>
 <p>S21[©]</p>	<p>SAFETY21's mission is to provide scalable outsourcing services to the Government through the proprietary IoT cloud platform TITAN[®] in terms of road safety and enforcement violations. We offer complete coverage for management of highway code violations: from detection of the infraction to management of the entire disciplinary and ticketing procedure through our proprietary IoT Cloud TITAN[©] software.</p> <p>Stage: Expansion/Growth Location: Rome, Italy CEO: Gianluca Longo</p>

	<p>SMART-I provides interactive services for Smart_City by means of its multifunctional product SmartEye, which is a cognitive network of vision sensors. When, installed on street lamps, it provides different services related to Smart City by means of an automatic urban scene analysis: adaptive lighting, smart mobility and security, traffic flow analysis and prediction, detection of weather conditions.</p> <p>Stage: Expansion/Growth Location: Rome, Italy CEO: Mauro Di Giamberardino</p>
	<p>STUDIOMAPP was created to compete and develop products and services especially in the area of Quality of Life and Smart Cities. Studiomapp focuses its activities on developing sustainable solutions and societal changes through social innovation.</p> <p>Stage: Start-up Location: Cesena, Italy Founder: Angela Corbari</p>
	<p>SUPERMERCATO24 aims at making grocery shopping online easy, fast and convenient. We want to change the world and give back all the time and efforts that everyone now spends in picking, queuing and delivering their own groceries at home.</p> <p>Stage: Expansion/Growth Location: Verona, Italy CEO: Federico Sargenti</p>

	<p>VIRALIZE provides an adaptable digital video technology platform for Advertisers, Publishers, and Creators, that supports the distribution and monetization of video content through instream and outstream units, including native ones, across desktop and mobile.</p> <p>Stage: Expansion/Growth Location: Florence, Italy CEO: Marco Paolieri</p>
	<p>VISIONAR's mission is to achieve a lead position in the electric and hybrid 2WD motorcycle market. Fun, connectivity and customization are the values we want to offer to our customers. A continuous basic research on vehicle dynamics and control system will assure a competitive advantage to eventual competitors willing to play into the 2WD arena.</p> <p>Stage: Expansion/Growth Location: Osimo, Italy CEO: Andrea Andreucci</p>
	<p>WATERVIEW introduces solutions for the monitoring and measurement of atmospheric events which can be rapidly disseminated; it focuses on efficacy and cost-effectiveness in the generation of data thanks to the use of existing infrastructures.</p> <p>Stage: Start-up Location: Turin, Italy CEO: Paola Allamano</p>

	<p>WAVE TRASTIC hopes to generate social advantages, either by creating new job positions or by the diffusion of a deep culture of environmental sustainability. For off-grid areas or small islands, Wave Trastic gives the opportunity to overcome the traditional carbon methodologies (local monopoly production), often with very high costs.</p> <p>Stage: Start-up Location: Asti, Italy Founder: Giorgio Cerruti</p>
	<p>WINEOWINE is a website focused on small premium Italian wine producers, known as “boutique wineries”. It works with a mix of flash sales and e-commerce.</p> <p>Stage: Expansion/Growth Location: Rome, Italy Co-Founder and CEO: Federico Laurentino De Cerchio</p>
	<p>XMETRICS is a wearable technology company, combining Italian design with advanced biomechanical sensors and sophisticated algorithms, resulting in the ultimate ingenious activity tracker to improve any swimmer’s performance.</p> <p>Stage: Start-up Location: Milan, Italy Co-Founder: Francesco Quartuccio</p>

	<p>YOU ARE MY GUIDE makes hotels more attractive providing real-time travel content, automatically updated and leveraged on its Machine Learning and AI system. It analyses travel habits to tailor-make the offer and the travelling content during the stay. We help to remove barriers among people and services providers that through YAMGU are able to act proactively to perfectly match customer needs.</p> <p>Stage: Seed Location: Turin, Italy CEO: Ester Liquori</p>
	<p>ZEGO URBAN CARPOOLING (formerly Letzgo) is an Instant Urban Carpooling service connecting in real time private people driving their own car with people who need a ride within a city. The service connects a community by an innovative platform matching drivers and passengers requested.</p> <p>Stage: Start-up Location: Milan, Italy President: Davide Ghezzi</p>
